Extraordinary strong points of Akihiko Uchikawa

1. **As a leading expert of the Franchise Industries, gain hands-on experiences for over 46 years.**

Undertake consultation with over 300 Franchise corporations.

Build up over 150 Franchise Headquarters.

2. **Counselor in charge of the Franchise Counselling Center in the Japan Franchise Association and the number of consultation exceeds 3,000 cases.**

Familiar with real situation of the established Franchise HQ of JFC association member.

Knowledgeable about conflicts between Franchise HQ and member stores, and also know everything about problems and issues of Franchise HQ.

3. **More knowledgeable than lawyers about Franchise laws and regulations.**

Support drafting the trouble-free Franchise agreement.

A formulator drafting the revision of Small and Medium-sized Retail Business Promotion Act of 2002. Review every Franchise Agreement executed by the associate members of the Japan Franchise Association.

4. **Able to assist to develop authentic Business Model and Franchise Package.**

Profound experience gained from proven consultation for wide variety of business types and business models including the Retail industry, the Food service industry and the Service industry.

5. **Only in-house franchise specialists engage in consulting services with no subcontractors involved.**

Franchise specialists including former employees of the Japan Franchise Association will develop a tailor-made Franchise Package which will fulfill expectations of every client.

6. **Extensive consulting experiences in overseas markets and strong networks established.**

The number of business trips to the USA, home of the Franchise, reached more than 50 creating human networks. Also established strong human networks in emerging countries in Asia and continuously promoting Franchise business relationships.

7. **Thorough knowledge about the employee franchise system.**

Build up the employee independence system at many companies.

While served in Lawson Inc., Mr. Uchikawa worked out and launched the Franchise owner outsourcing system which is the first case of the CVS industries.

He also built the employee franchise system at the well-known beauty shop chain and expanded outlets from 17 shops to 200 in 8 years.

8. **Good track record to develop and build a new business model in a major convenience store company.**

Site location evaluation system

Mr. Uchikawa made the final decision for developing more than 1,000 outlets at Lawson Inc. as a general manager of the store development division based on the know-how to evaluate, analyze and select a right site and premises.

Merchandizing system

Develop the world's first parachute wrapping for a rice ball. Manufacture and sale of the Rock ice. Develop a purchase channel of books and a utility bill payment system. Many other track records.

Logistics system

Create the basis of the logistics system for CVS including delivery in small quantity and in separate temperature zones.

Supervising system

Create a supervisor system to give continuous guidance and advice to franchisees.

Education and training system

Mr. Uchikawa has been serving as an instructor for 18 years since the opening the supervisor school in the Japan Franchise Association, the concept of which is totally different from that of an ordinary employee training system. The school emphasizes human education in order to realize dreams and hopes through daily work.

Management Information system

While served in Lawson Inc., Mr. Uchikawa was responsible for developing a CVS information system. Mr. Uchikawa guided and supervised Casio Computer Co., Ltd. to develop the New POS system. He also engaged in developing information systems of many types of business.

1 Consultation for designing and restructuring of Franchise Headquarters

FRSI can provide a wide variety of consulting services in building up Franchise Business. FRSI will assist you in designing a business category of a standard business model, organizing Franchise Headquarters and recruiting Franchisees.

1. Assess a potential of your franchise chain.

2. Support developing a business package for a prototype shop.

3. Support designing and creating a franchise package for the headquarters.

4. Support designing and creating a franchise system.

5. Support formulating a business plan for the headquarters.

6. Support education and training of HQ staff.

7. Support creating a marketing plan for recruiting Franchisees.

2 Consultation for Employee franchise system or In-house franchise system

Rewarding such a long-service employee as is promoted from a shop boy to an assistant manager and a general manager, a merchant family of olden days in Japan used to have an employee independence system, or a system of transferring goodwill to its employees.

FRSI modernizes and uniquely redesigns it to the employee franchise system. If you wish to activate your outlets, prevent staff from leaving, or improve financial standing, we can offer the employee franchise system as the most effective measure to galvanize your chain operation.

1. Design entire process of the employee franchise system.
 2. Create the new personnel system.
 3. Create the new training and education system = Presidential academy.
 4. Criteria of selecting target business category and target outlets.
 5. Simulate a profit and loss statement of the store.
 6. Formulate selecting criteria or qualification of employees for independence system.
 7. Formulate a business plan for the employee franchise system.
 8. Formulate procedures for introducing the employee franchise system and launch the system.
- 

3 Consultation for education and training

FRSI would provide tailor-made training and seminar programs to meet the needs or requests of individual companies, and those programs could be modified according to the hierarchy level of the company separately for management executives, recruiters, merchandisers, supervisors, store managers and part-time workers.

1. Hold seminars to broker and mediate overseas franchise headquarters.
 2. Organise and conduct seminars for studying overseas markets.
 3. Organise and conduct various types of seminars in Japan.
 4. Conduct education and training program for management executives.
 5. Conduct education and training program for supervisors.
 6. Conduct education and training program for store managers.
 7. Conduct education and training program for franchise owners.
 8. Conduct education and training program for various hierarchy of employees.
